

From Resistance to Resilience

A Strategic Guide for Organizing Civil Society Field Hearings

Spring 2025
Version 1.0

The authors of this playbook intend for it to be a constructive plan for building opposition to an overreaching president. At the same time, we believe this playbook offers guidance to create new norms and methods in a modern democracy.

We hope this information will prompt a truly American journey—devolving power outward and to the People, decentralized, but also connected through values into action. Our goal is for this playbook to be adapted, improved, and expanded into a democracy movement.

Please send a note letting us know if you used this playbook to organize a Civil Society Field Hearing and let us know how it went. If you would like to add your Field Hearing testimony to an open-source repository at the Impact Project, please reach out. We would also be glad to hear about lessons learned, comments, and suggestions for other civic curriculum. Contact us at ConstitutionalDefense@proton.me.
